

What mobile applications does Econz Wireless offer?

Timecard is a GPS tracking and time sheet solution that works from a cell phone, smart phone, and/or tablet. Time, Attendance, and GPS tracking data is transferred from a field worker's device to Econz web-based software for real-time backend management capabilities.

Eservice is a simple web based, work order dispatch software that enables a field service team to receive and respond to customer work orders as well as tracking field workers movement throughout the day.

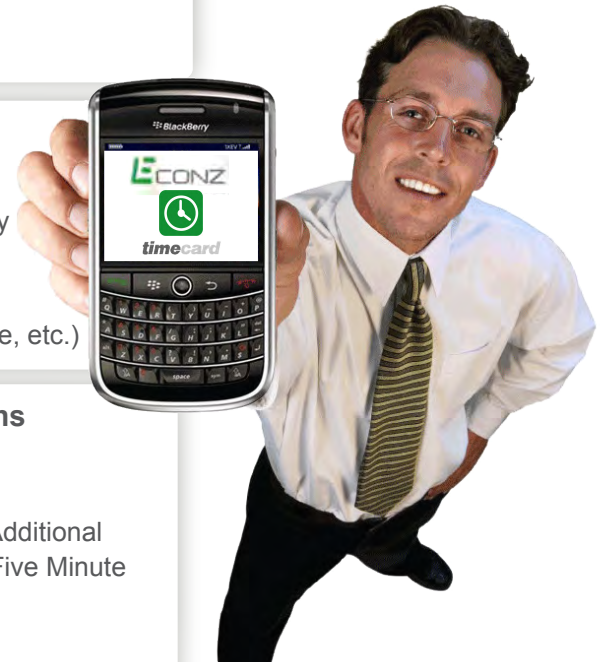

What sectors are using Timecard and Eservice?

- Construction
- Distribution
- Public Safety
- Government
- Healthcare
- Transportation
- Telecommunications
- Utilities
- Maintenance
- Any company with mobile employees!!!

What are customers seeing in return on their investments?

- Increased worker productivity
- Decrease in Time-Theft by Employees
- Reduced paperwork & time savings
- Manage workforce more efficiently
- Streamline Time and Attendance into preferred Accounting and Payroll Systems
- Increase Profits by saving on everyday costs(fuel, administration, overtime, etc.)

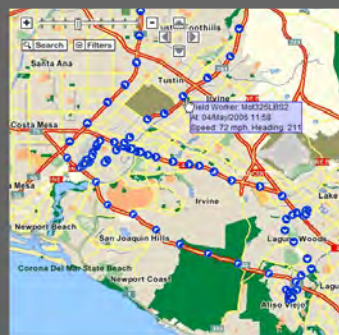

How does a company get more information on these applications and what is the discount to NPP Members?

NPP members can request an online webinar of either application at www.econz.com/npp.html or can dial ECONZ Wireless at 866-408-3475. Additional information is available at the NPP member portal including: Flash Demo, Five Minute Online Webinar, Timecard and Eservice Data Sheets.

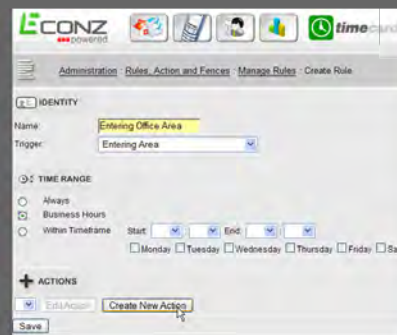

NPP members receive a 50% discount on all setup fees.

View Individual worker details including activity and current position.

The 'Breadcrumb' trail view shows speed, direction, location, and status of workers.

Mutiple rules can be setup based on triggers such as entering or exiting area, speed and movement.

Smart fences can be setup around any mapped location.
